Explanatory Note

We are filing this amendment to the Sinovac Biotech Ltd. Annual Report on Form 20-F for the year ended December 31, 2008 (the “2008 20-F”), originally filed on May 1, 2009, for the purpose of filing the attestation report of our independent registered public accounting firm on our management’s conclusion regarding the effectiveness of internal control over financial reporting that was inadvertently omitted. The 2008 20-F has already disclosed that our independent registered public accounting firm has audited our internal control over financial reporting and its report on our financial statements also mentioned that it has given a separate report with an unqualified opinion on internal control over financial reporting. Solely as a result of this inadvertent omission, our Chief Executive Officer and Acting Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of December 31, 2008 (the end of our 2008 fiscal year) at the reasonable assurance level. For the convenience of the reader, this amendment sets forth (1) Part II, Item 15 in its entirety and (2) the independent registered public accounting firm’s attestation report on our internal control over financial reporting. This amendment does not change the previously reported financial statements and other financial disclosures included in the 2008 20-F. No other information in the 2008 20-F as originally filed is amended hereby, and accordingly, this amendment does not reflect events occurring after the original filing date or modify or update those disclosures affected by subsequent events. Accordingly, this Amendment No. 1 on Form 20-F should be read in conjunction with our other filings with the Securities and Exchange Commission.

ITEM 15. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this annual report, our management, with the participation of our chief executive officer and acting chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures within the meaning of Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon this evaluation, our management has concluded that, solely as a result of our inadvertent omission to include the independent registered public accounting firm’s attestation report on our internal control over financial reporting in the 2008 20-F which is corrected by the filing of this Amendment No. 1 on Form 20-F, as of the end of the period covered by this annual report, our existing disclosure controls and procedures were not effective to provide reasonable assurance that material information required to be disclosed by us in the reports that we file with, or submit to, the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in by the SEC’s rules and regulations. To remediate the foregoing deficiency in our disclosure controls and procedures that led to the inadvertent omission described above, we are implementing additional steps, which include: (i) adopting additional internal review procedures with respect to required disclosures in the reports that we file with, or submit to, the SEC under the Exchange Act; (ii) enhancing our internal communication process associated with such disclosures; and (iii) improving our training and education of certain of our personnel who are involved in aspects of our reporting process.

Management’s Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation and fair presentation of its published consolidated financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may not prevent or detect misstatements and can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2008. In making this assessment, it used the criteria established within the Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, our management has concluded that, as of December 31, 2008, our internal control over financial reporting was effective.

Our management’s assessment of the effectiveness of internal control over financial reporting as of December 31, 2008 has been audited by Ernst & Young LLP, an independent registered public accounting firm that audited the financial statements included in the annual report. The attestation report issued by Ernst & Young LLP on management’s assessment of the effectiveness of internal control over financial reporting is set forth below:

**Report of Independent Registered Public Accounting Firm
on Internal Control Over Financial Reporting**

To the Board of Directors and Shareholders of Sinovac Biotech Ltd.

We have audited Sinovac Biotech Ltd.'s (the "Company") internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO" criteria). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company as of December 31, 2008 and 2007, and the related consolidated statements of operations and comprehensive income (loss), stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2008, and our report dated April 8, 2009 expressed an unqualified opinion thereon.
